MATH-471, Homework 2

1. Normal.

2. Weibull // not exponential, because we don't know if failures are Poisson?

3. Gamma

4. Gamma

5. Poisson

6. Exponential? // Or Weibull?

7. Exponential

8. // Should be something used to model extreme tendencies, rather than a variable's average?

9. Normal

10. Exponential

11. // not sure
